ACADEMIC PROJECTS

Assessing Democratic Accountability in East Asian Democracies *May 2024 – Present*

- Joint project with Waseda University and Korea University, examining how citizens in Japan, South Korea, Taiwan, the United States and Australia respond to undemocratic acts by legislators.
- Designed and implemented cross-national survey experiments testing public reactions to election denial, suppression of freedom of assembly, and attacks on judicial independence.
- Coordinated fieldwork across multiple countries, integrating comparative analysis with the Asian Barometer Survey framework.
- Preregistration available at https://doi.org/10.17605/OSF.IO/QMC4T.

Environmental Attitudes and Nuclear Energy Acceptance: A Cross-National Survey Experiment *June 2024 – Present*

- Designed and implemented survey experiments in Taiwan, Japan, and South Korea to examine how environmental values and perceived risks shape public support for nuclear energy and renewable alternatives.
- Investigated how proximity to nuclear facilities and "Not-In-My-Backyard" (NIMBY) attitudes influence citizens' willingness to endorse energy transition policies.
- Analysed behavioural and attitudinal responses to policy incentives, integrating geolocation and heatmap survey data.
- A joint research project with National Taiwan University.

Unearthing the Foundations of Democratic Support in Myanmar *Febuary 2022 – Present*

- Conducted an in-depth analysis of pre-coup survey data for the project "Unearthing Democracy in Burma," as a tribute to Burmese aspirations for freedom.
- Investigated the implications of religious and ethnic issues on democracy consolidation in Myanmar and examined the grassroots democratic growth under the NLD regime.

Establishing Taiwan's First Probability-Based Online Panel *November 2018 – Present*

- Led the development of Taiwan's pioneering probability-based, mixed-mode survey project.
- Implemented probability-based sampling methods (DFRDD & GIS/GPS sampling) to garner timely public opinions within a structured panel framework.

Computerized Survey Sampling Leveraging GIS/GPS Technologies *September 2018 – Present*

- Developed a novel sampling method for the Asian Barometer's survey sampling in China & Myanmar (2019) and "Tolerance and Diversity in Myanmar" project in collaboration with Canadian NGO "Digital Public Square".
- Created an open-source package to empower researchers worldwide to conduct GIS survey sampling independently.
- This cross-platform tool was written in Bash & Python, facilitating easy utilization.

Big Data Analysis of Online Platforms in Taiwan and China *Jan 2016 – Feb 2021*

- Uncovered CCP government censoring strategies through a study titled "No-Democracy in My Backyard."
- Produced two in-depth reports on "Populism Movement of Han-wave in Taiwan" and "Citizen's Response to Covid-19" for Apple Daily.

Cultural Values, Inequality, and Democratic Consolidation *September 2015 – Present*

- Identified cultural values as the key to understanding the interplay between inequality and democratic consolidation.
- Introduced the concept of "Liberty-Equality" values as the cultural foundation of democratic support.

Asian Barometer & Global Barometer Survey *August 2012 – Present*

- Fostered innovative research inquiries and explored potential uses of extensive, Asian-wide survey data.
